## **FEEDING DIRECTIONS:**

Feed at a rate of 0.2 lb/head/day to provide 154 mg/head/day of Rumensin. Provide an abundant, fresh supply of water. Provide a separate source of salt, free choice. For further directions consult your supplier.

## **CAUTION:**

Do not allow horses of other equines access to formulation containing Monensin. Ingestion of Monensin by equines has been fatal. Monensin medicated cattle feed is safe for use in cattle and goats only. Feeding undiluted or mixing errors resulting in high concentrations of Monensin has been fatal to cattle and could be fatal to goats. Must be thoroughly mixed in feeds before use. Do not feed undiluted. Do not exceed the levels of Monensin recommended in the feeding directions as reduced average daily gains may result. If feed refusals and amount of refusals fed should be taken into consideration to prevent Monensin overdosing.

## **WARNING:**

A withdrawal time has not been established for Pre-ruminating calves. Do not use in calves to be processed for veal.

## **CAUTION:**

This Feed contains added copper, do not feed to sheep

## **CAUTION:**

Do not exceed 0.3 mg/kg of selenium in the complete feed

**No Warranty of results is made due to differences in environment, genetics, health, and management. This product was made in a feed manufacturing facility that does not handle or store products containing animal protein prohibited in ruminant feed.**
