NUTRITION SERVICES, INC. York, NE 68467

NET WT 50 lb. (22.68 kg) or BULK
D425AX 061112 Salmon

PRODUCT DESCRIPTION: *Calf MAXX* is a special blend of high quality feed ingredients to be used in cattle and swine. It can be used in complete feeding programs on a daily basis as an excellent source of protein, fat, vitamins and minerals.

Calf MAXX is an excellent source for protein, fats and amino acids in Show animals as well as commercial animals that are getting started on feed or are in a hospital pen environment. It provides excellent energy and is extremely palatable.

Feeding Directions

Show Cattle: Feed 1 pound per head per day in addition to a normal feed diet according to protein requirements. *Calf MAXX* is 26% protein and can be added to a 12% protein feed in ¼ pound daily steps as not to cause digestive upset.

Show Swine and Goats: Feed 4 ounces per head per day in addition to a normal feed diet according to protein requirements. *Calf MAXX* is 26% protein and can be added to a 12% protein feed in 1 ounce daily steps as not to cause digestive upset.

Starting calves: Use *Calf MAXX* at one ounce per head per day in addition to calf starting feed when feeding bucket calves. Use *Calf MAXX* throughout the starting phase of calves increasing the level to 4 ounces per head per day by the time they reach 300 lbs.

Calf MAXX can be used in many other applications and situations . . . consult your **TRACER** representative for more information.

The ingredients in *Calf MAXX* including whey protein, flax and canola (sources of omega 3 fatty acids), chelated trace minerals and other fat sources will help your animal achieve a higher health status, better hair coat shine, smoother mobility and increased performance over other feed sources.

WARNING: THIS PRODUCT CONTAINS A HIGH LEVEL OF COPPER. DO NOT FEED TO SHEEP.
