PRODUCT DESCRIPTION: *Equi MAXX* is a special blend of high quality feed ingredients to be used in all classes of horses. It can be used in a complete feeding program on a daily basis as an excellent source of protein, fat, vitamins and minerals.

Equi MAXX is an excellent source for protein, fats and amino acids in Show and performance horses as well as horses that are in need of putting on some extra weight, geriatric horses and horses that may be in a hospital environment. It provides excellent energy and is extremely palatable.

FEEDING DIRECTIONS:

PERFORMANCE AND SHOW HORSES:

Feed 1 pound per head per day in addition to a normal feed diet according to protein requirements. *Equi MAXX* is 26% protein and can be added to a 12% protein feed in 1/4 pound daily steps as not to cause digestive upset.

FOALS:

Use *Equi MAXX* at one ounce per head per day in addition to foal starting feed and when bottle feeding. Use *Equi MAXX* throughout the starting phase of foals increasing the level to 4 ounces per head per day by the time they reach 300 lbs.

Equi MAXX can be used in many other applications and situations... consult your **TRACER** representative for more information.

The ingredients in *Equi MAXX* including whey protein, flax and canola (sources of omega 3 fatty acids), chelated trace minerals and other fat sources will help your animal achieve a higher health status, better hair coat shine, smoother mobility and increased performance over other feed sources.

LIMITED WARRANTY: Tracer Minerals warrants that the product conforms to the label description. Liability of seller shall be limited to the purchase price of the product, which shall be the buyer's sole remedy.
