CATTLE NUTRITION

FORMULATED WITH HIGHLY BIOAVAILABLE  
AMINO ACID CHELATED TRACE MINERALS

FOR USE IN DAIRY AND BEEF CATTLE  
OPERATIONS

## Trace Mineral

TRACER Mineral products are specially formulated to meet the mineral needs of production, breeding and performance animals - even in the most challenging environments.

Mineral nutrition is essential in production of hormones, immune system components and the digestion and the metabolism of feedstuffs.

TRACER Mineral formulations utilize the latest technology for delivering minerals into an animals' bloodstream. Amino acid chelates are proven to be the most bioavailable and effective formulations for the enhancement of all life: human, plant and animal.

Amino acid chelates are absorbed as amino acids and deliver mineral directly into the animals' bloodstream and tissues. The minerals are utilized for growth, production and energy. The unique mode of absorption of amino acid chelates provides results that are unmatched by any other organic mineral.

TRACER formulations are different - witness the results for yourself.

## How can I be sure I'm feeding a real chelated trace mineral?

Check the feed tag! Chelated trace mineral ingredients are listed specifically. Check your mineral tag under the feed ingredients list. If it shows "(metal) amino acid chelate" then you can be assured you are getting a true chelate.

### Tracer Platinum 220

Guaranteed Analysis:

Calcium (min)	15.5%
Calcium (max)	18.6%
Phosphorus (min)	8.4%
Magnesium	4.9%
Potassium (min)	2.7%
Zinc (min)	6993 ppm
Copper (min)	1584 ppm
Selenium (min)	52.9 ppm
Vitamin A (min)	370,000 IU/lb
Vitamin D3 (min)	55,000 IU/lb
Vitamin E (min)	450 IU/lb

Ingredients:  
Mono-Calcium Phosphate, Calcium Carbonate, Processed grain by-products, Magnesium Oxide, **Zinc Amino Acid Chelate, Manganese Amino Acid Chelate, Copper Amino Acid Chelate, Magnesium Amino Acid Chelate, Potassium Amino Acid Complex**, Potassium Chloride, Sodium Selenite, Zinc Oxide, Vitamins A, D & E Supplement, Copper Sulfate, Choline Chloride, Manganous Oxide, Niacin Supplement, Natural and Artificial Flavors, Ethylenediamine Dihydrochloride, Thiamine Mononitrate, Vitamin B12 Supplement, Riboflavin Supplement, Cobalt Carbonate, D-Calcium Pantothenate.

Feed free choice or add to ration at the rate of 2 oz. per head/per day. Calves consume 0.5 oz. per head/per day

Provide free choice salt with mineral.

## Minerals are **Vital**

### Zinc

Protein synthesis and wound healing.

### Copper

Red blood cell formation and aids in proper bone formation and maintenance.

### Manganese

Activates vital enzymes important in the blood breakdown of amino acids and energy production.

### Potassium

Aids in sending oxygen to the brain and stimulates kidneys eliminating poisonous body waste.

### Magnesium

Proper Calcium and Vitamin C absorption. Converts blood sugar into energy.

Research shows that feeding real Amino Acid Chelated trace mineral formulas have less health problems in their calf crop.
